

Energy Citizens' Rally

Supporting ND Families, Farms, Jobs and Affordable Energy

Location: National Energy Center of Excellence
Date: Thursday, August 27, 2009
Time: Doors open at 5:00 p.m. with Food, Music and speakers

Climate change legislation being considered in Washington means economic pain for North Dakota. This climate change legislation will lead to higher energy costs for families, businesses, agriculture and loss of energy related jobs. The Energy Citizens' Rally is for North Dakotans from all walks of life whose daily lives and ability to carry on business and raise families depend on affordable energy and maintaining a vibrant state economy.

Bring your family and friends and enjoy hot dogs and brats, music, ice cream and root beer floats while learning more about how climate change legislation in Washington affects the people of ND.

*Support a common sense approach to energy policy.
Let our U.S. Senators know they are on the right track.
This legislation will hurt North Dakota!*
